

handoff example

use middleware!

```
const { Handoff } = NativeModules;

const handoffMiddleware = store => {
  Handoff.onHandoffReceived({ url } => {
    store.dispatch(openURL(url));
  })
  // next slide ...
}
```

handoff example

use middleware!

```
const handoffMiddleware = store => {  
  // previous slide ...  
  return next => action {  
    switch (action.type) {  
      case NAVIGATE_TO_WIDGET_DETAIL:  
        Handoff.setCurrentURL(  
          makeCurrentURL(store.getState(), action));  
      default:  
        break;  
    }  
    return next(action);  
  }  
}
```
